

PROJECT PROFILE

CULTURE, SPORT & RECREATION

Netball SA Stadium

The Netball SA Stadium is South Australia’s premier netball venue and home to both the Adelaide Thunderbirds and Netball SA. The stadium is the main facility for both indoor and outdoor netball competition and is regularly used by both community and elite players. Recent developments included upgrades to outdoor courts and facilities, various indoor improvements and upgrades to the car park and external areas.

Client

Netball SA

Location

Adelaide | South Australia

Project cost

AUD 2M

Dates

2014

Our involvement

Aquenta Consulting were engaged to prepare estimates for various works to assist Netball SA with a grant application for maintenance/upgrade funding. Working closely with Netball SA and Department for Planning, Transport & Infrastructure (Office for Recreation & Sport), we were able to identify the required scope of service and recommend the most appropriate method for subdividing estimated costs to ensure the best outcome from the grant application process.

The work was completed within a very tight timeframe to maximise the opportunity to guarantee funding during the months leading up to the last state election.

Services

Estimating Services

The outcome

The process proved very successful resulting in guaranteed commitment for elements of the work from the Special Purpose Grants budget in place at the time. This enabled Netball SA to progress with key components of work and to continue developing a budget bid for the remaining scope. Without the collective ability to identify and work towards the key opportunities/outcomes the project may not have been able to gain funding support.
