

PROJECT PROFILE

WATER & WASTE MANAGEMENT

SA Water – Capital Works Estimating

As part of the SA Water Estimating Panel, Aquentia assist SA Water in developing and reviewing costs for projects at various stages of the lifecycle, ranging from concept/feasibility/FFA through to pre-tender. All relevant commodities (civil, mechanical, electrical & automation) are taken into account for all the different assets, such as WWTP's, Pump Stations, Dosing Stations, in ground storages/ tanks, PLC & SCADA, sewer and water mains.
